SUMMARY

Full Stack Software Engineer with 4 years' experience in TypeScript, Node.js, and React.js. Skilled in building scalable microservices, event-driven systems, and cloud deployments (AWS, DigitalOcean, Oracle). Experienced in leading teams and delivering high-quality software through modern CI/CD practices.

EXPERIENCE

Full Stack Web Developer

Sensviz **December 2022 - Present, Lahore, Pakistan**

- Led teams (2–4 developers) on different projects and delivered SaaS platform for **grant discovery, testing platform for horse judges, CRMs and Lead management domains** using React, Next, TypeScript, Node.js, and MongoDB.
- Architected **event-driven microservices** with RabbitMQ, enabling scalable communication and clear separation of concerns across two different express servers.
- Designed and optimized **MongoDB schemas & queries for 100K+ records**, achieving query performance improvements **under 3 sec**.
- Developed and documented **REST APIs** with TypeScript, Swagger, and Jest test coverage, ensuring scalability and maintainability.
- Built advanced platform features including **intelligent search, subscription billing with Stripe, Tests Creations and workflow automation**.
- Implemented **hierarchical role-based access control (RBAC)** for secure multi-tenant and multi-role systems.
- Set up **CI/CD pipelines** with GitHub Actions, automating builds, tests, and deployments to AWS and DigitalOcean.
- Deployed applications with **Docker** ensuring scalability, resilience, and simplified infrastructure management.
- Led **architecture decisions, design feasibilities, code reviews, and technical direction**, improving team efficiency and code quality.
- Contributed to the open-source library **@r5v/mongoose-paginate**, improving its functionality and documentation.

Full Stack Web Developer

Innovage.io **December 2021 - December 2022, Lahore, Pakistan**

- Integrated Stripe Payment Gateway in Next.js to manage both subscription-based and one-time purchases for book solutions, ensuring a secure transaction experience.
- Created a book management module in Nextjs using CKEditor, supporting chapter-wise and section-wise addition of questions and solutions.
- Developed data analytics dashboard in Reactjs with visualizations to track user metrics, subscriptions
- Integrated LinkedIn and Indeed APIs to fetch job listings in Next.js and Designed responsive Jobs page using SCSS.
- Implemented Calendly integration for seamless interview scheduling in Nextjs.

EDUCATION

Bachelor in Computer Science

FAST - National University of Computer and Emerging Sciences • Lahore, Pakistan • 2022

SKILLS

Languages: TypeScript, JavaScript, Python

Frontend: React.js, Next.js, Redux Toolkit, Material UI, Tailwind CSS, Ant Design

Backend: Node.js, Express.js, FastAPI, Flask, Django REST Framework

Databases: MongoDB, Pinecone

Event-Driven Architecture: RabbitMQ

Testing: Jest

DevOps & Cloud: Docker, AWS, DigitalOcean, Oracle Cloud, GitHub Actions, Jenkins

Tools & Practices: Git, GitHub, Linear, Jira, RESTful API Design, Swagger/OpenAPI
